

Ford C3 Building Sustainable Communities 2023 Cycle 10: General Terms and Conditions

1. Through the tenth cycle of the Ford C3 Building Sustainable Communities Project Partnership, Enactus and Ford Fund challenge Enactus teams in Australia, Brazil, Germany, Mexico, Puerto Rico, South Africa, and the United Kingdom to use entrepreneurial action to find innovative, creative and unique ways to address an urgent, unmet social need or problem in the local community, empowering the community to become a more sustainable place to work and live. The project submitted may be new or continuing but must have outcomes completed during your country's Project Partnership time period.
2. Projects must include the following elements: create an innovative approach to "Building Sustainable Communities"; involve students in a leadership role; address an urgent and unmet community need in a tangible way; involve a community-based organization as a partner; generate and document measurable outputs and outcomes to demonstrate the success of the project.
3. All grant applications must be received by your country's application deadline. Enactus will consider one application per team.
4. Note the Ford C3 Building Sustainable Communities Project Partnership is offered in Australia, Brazil, Germany, Mexico, Puerto Rico, South Africa, and the United Kingdom— teams will be judged at the national, not global, level to determine grant recipients.
5. Grant funds will be issued in multiple disbursements. Contact your Country office to learn more about the grants available to your country.
6. Grant funds may only be expended or committed for the purposes and time period as stated in your application. The university administration cannot deduct any fees from the grant disbursements. Any amendments to the budget or scope of the project must be agreed upon in advance in writing with your Enactus contact.
7. Participating Enactus teams agree to seek media recognition, including acknowledgment of Ford Motor Company Fund's partnership through the Ford C3 Building Sustainable Communities Project Partnership using the online media toolkit located on the program webpage. Teams must abide by all branding guidelines when using the Ford Motor Company Fund logo. Teams are required to recognize Ford Motor Company Fund's partnership in all Ford C3 Building Sustainable Communities project activities, including media articles.
8. A completed Final Impact Report must be submitted that details the project(s) and the outputs and outcomes achieved. The Final Impact Report must be submitted by 30 November 2023. All Final Impact Reports will be closely reviewed by Enactus staff to verify the accuracy of materials and data submitted. Enactus reserves the right to perform an audit of any team's report. The Project Lead and/or Project Advisor must be available through January 31, 2024, via email or phone to answer additional questions.
9. Participating Enactus teams agree to allow team contact information to be shared with Enactus and Ford Motor Company Fund.
10. By entering, Entrant agrees that they have no right to bring (and covenant not to bring) any claim, action, or proceeding of any kind or nature whatsoever against Enactus or Ford Motor Company Fund, or any of their respective affiliated companies, subsidiaries, officers, directors, employees, agents, assigns or shareholders in connection with the Ford C3 Building Sustainable Communities Project Partnership. Please note that in awarding this grant, neither Enactus nor Ford Motor Company Fund make any commitment, implied or otherwise, to renew this grant at the end of the grant period.
